Merrimack, March 1, 1882.

There appears to be an error in the warrant given by the Selectmen to the Treasurer in 1879, which shows that the amount charged in the reports for the years of 1879 and 1880 were \$396.69 more than the amount committed to the collector in his tax-book for collection. The reports, therefore, for the last two years have given the standing of the town \$396.69 better than it actually was.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF MERRIMACK,

FOR THE

SCHOOL YEAR, 1881-82.

NASHUA:

M. V. B. GREENE, PRINTER, STATIONER AND BINDER.

1882,

R E P O R T .

The following is your committee's report, and is respectfully submitted.

In submitting our report of the schools we deem it best to drop the worn out forms of speaking of the schools by districts, for they mean nothing, or but little as a rule; the praise that we thought was merited has been bestowed during our official visits, and a report is certainly no fit place for words of fault.

Our teachers as a whole have done good and faithful work, some of them have steadily improved during the entire school year, whilst others have given your committees the impression that teaching is done wholly for the remuneration, and that impression has seemed to pervade the scholars making them indifferent and careless.

It is not every one that is fitted to teach, in fact but few are capable of making excellent teachers, and it is only the latter class that we want.

Parents, did you ever think what a great responsibility rests upon you in the bringing up and training of your children? This same grave responsibility rests upon the teacher, and we cannot be too careful in selecting those who will care for the moral as well as the intellectual welfare of these future men and women.

And in order to obtain and retain good teachers we must pay good wages and have a different system of

hiring them. The teachers of our schools during the past year were publicly examined and the following were approbated.

Miss Fannie E. Brown,	. . .	Merrrimack.
Fannie A. Darrah,	. . .	Bedford.
Mary E. Manning,	. . .	"
Lavinia I. Dodge,	. . .	Nashua.
Marie A. Bowers,	. . .	Merrimack.
Flora E. Hunt,	. . .	"
Hortensia McMillin,	. . .	"
Lizzie C. Sargent,	. . .	Amherst.
Laura E. Fellows,	. . .	Fremont.
Addie L. Flanders,	. . .	Boscawen.
Ortie M. Smith,	. . .	Londonderry.

We feel it a duty to condemn the present school system and recommend the adoption of the town system.

Says our able State Superintendent of Public Instruction:

"There is much to commend and little to regret in the supervision of the schools which have the services of superintendents and boards of education except the occasional selection of unfit men for these responsible stations. It would be in the interest of popular education for the law to add to the function of these offices the duty of employing teachers, instead of leaving it to prudential committees as it now stands. No man should hire a teacher, until he is informed as to his intellectual and moral qualifications for the place he is expected to fill, the examination should precede the contract and be made by the same party. If this was the law, nepotism, incapacity and district feuds would become rare and a higher order of teachers be employed in the schools."

Early in the fall a teacher's institute was held, and was well attended by teachers and citizens. It was expected that all of our teachers would have been present but such

was not the case, some of them remaining intentionally away. Those that did not attend missed an enjoyable and, we trust, a profitable day's work.

During the year the Appleton series of Readers have been introduced, taking the place of Monroe's series, and, as far as your committee can learn, the change is a good one.

Of the \$150 raised at the last annual town meeting for school supplies we have expended \$139.58 as follows:

Ten sets Mitchell's outline maps,	\$75 00	
Ten six inch globes,	25 00	
One gallon liquid slating,	8 00	
Five Webster's acad. dictionaries,	7 75	
Eleven fixtures for state maps,	8 25	
Six school bells,	8 00	
Miscellaneous and work on black-		
boards, etc.,	12 58	
	—————	\$139 58

leaving a balance of \$10.42. We would ask an additional sum of \$65.00 to be raised for school supplies, clocks, reference books and any other necessary articles.

The blackboards throughout the town have been put in good condition and will not need much expended on them for five years.

The condition of some of our school-houses are monuments of disgrace to our town, some of them being entirely unfit for school purposes. Cannot something be done? Only one school building has been put in thorough repair and furnished with new seats,—since when, may I ask? During the past year there has not been \$5 expended in the town to make the school-room more comfortable or convenient, save what has been done by your committee to the blackboards.

We beg leave to call your attention to Districts Nos. 10 and 11. In No. 10 the sum of \$58.06 was paid for the

schools, it being their apportionment, and yet we did not have a scholar from this town present.

In No. 11 it cost \$60 to school three scholars ten weeks. Something should be done to remedy this, and we recommend the abolishment of this old system and adopting a town system.

ATTENDANCE

in the town, as a whole, has been very fair. Special mention is due District No. 8 ; during the past four years there has not been a tardy mark against any scholar, and the attendance for this year is 99 7-10 per cent. This is a record that the children and parents of that district may well be proud of, and in fact the whole town also.

A Roll of Honor appears this year, and some names that have been on nearly every year of late do not appear, but that is due to sickness or other unavoidable causes.

The whole number of children between the ages of five and fifteen, on the first day of April, as collected by the committee, was one hundred and sixty-one, numbered in the several districts as follows :
